## 120 Dice Roll

## Partner 1

Partner 2 $\qquad$

Materials: paper, pencil and 2 dice ( 6 -sided) : $8:$

Directions: Partner 1 starts writing one number in each box starting with 1. Partner 2 rolls the dice. When partner 2 rolls doubles, she says the equation (example: $6+6=12$ ) and partners switch jobs. The goal is to reach 120.
